CUSTOMER NOTICE

PLANNED MAINTENANCE WORKS ON 330KV MPIKA-PENSULO TRANSMISSION LINE TO AFFECT ELECTRICITY SUPPLY TO MUCHINGA, PARTS OF NORTHERN AND LUAPULA PROVINCES

ZESCO Limited has scheduled corrective maintenance works on the Mpika–Pensulo transmission line. The planned works, which will focus on the Pensulo Reactor at Mpika Step Down Substation, are scheduled to take place on **Sunday, 21 September 2025 from 06:00 hours to 18:00 hours**.

During this period, **Muchinga Province, parts of Northern and Luapula Provinces** will experience electricity supply interruption. Please take note that this outage and interruption to supply is not part of load shedding.

The successful completion of the planned works will improve reliability, safety and security of electricity supply in the affected areas.

As a safety precaution, our customers and the public are urged to treat all supply lines as always live, as electricity supply could be restored before the stated time.

ZESCO regrets the inconvenience this **planned and necessary** power supply outage may cause to our customers.
