

Powering The Nation

CUSTOMER NOTICE

NEW POWER RATIONING SCHEDULE

Starting August 5, 2024, ZESCO Limited is implementing a new power rationing schedule. To access the schedule for your area, dial *3600#, select option 5, and enter your meter number. Alternatively, you can download the upgraded My ZESCO Mobile App for the schedule and other services.

While ZESCO aims to follow the schedule, unforeseen challenges may cause delays or early cuts. The Corporation will communicate any disruptions via SMS, our Facebook page, and other media platforms.

Energy Saving and Safety Tips:

- Switch to energy-efficient bulbs like LED or CFL to save energy.
- Use solar power and LPG cookers for more efficient heating and cooking.
- Enhance your inverter system by adding solar panels to reduce reliance on the ZESCO grid.
- **Join the solar revolution!** Net metering is now available, allowing customers to generate their own solar power and even feed excess electricity back into the grid.
- Unplug electronics during outages to prevent damage, and install surge protectors to safeguard appliances against voltage spikes.
- Ensure your wiring is regularly inspected by qualified electricians.
- Educate family members on how to safely turn off and unplug appliances during power outages.

By following these tips, you can reduce electricity consumption, stay safe, and support sustainable energy use.

Thank you for your cooperation.
